Summary

I'm a trained Computational Linguist, specializing in Agentive Artificial Intelligence. I'm passionate about parts, are easy to maintain, and very fast. I'm job, but I have a couple of years of developing where I get a chance to continue my journey in AI.

Education

- Paused | Chalmers and the University of Gothenburg
Currently enrolled in the Bachelor of Science
Expected Graduation date is May 2028.
- 2004 | University of Gothenburg
B.Sc. Computational Linguistics. Coursework: Syntax, Formal Semantics, Phonetics, Di for Corpus Linguistics, Artificial Neural Automatic Analysis of Speech and Speech S
- 1996 | Pia, Sweden
Virtual Reality Trainee. Coursework in 3D modelling with Pro/Engineer, Adobe P Macromedia Director, Sound Editing, and V

Experience

- 2018 | Financial Markets and Blockchain Developer
Freelance Developer
For close to 5 years I have been programming open so markets. Projects that I have worked on include: Ho shelf, BikeChain - a proof of concept where bikeowne prove ownership, Ferrum - a Financial Exchange Infor hundreds of indicators and strategies that can be us
- 2015 | Swedish Chamber of Digital Currency Commerce
Founder
Founded the non-profit association SCDCC (Swedish Ch The purpose of the association was to increase know blockchain technology among companies, consumers, an marketing work for the founders of the cryptocurren swedish minister of digitalisation, and organised t multiple Blockchain events under the BitCoast name.
- 2009 | BnB and Lucky Punk AB
Co-Founder (BnB), Producer, and Director
Worked with corporate clients, such as *Bic, Volvo A Estrella,* in producing and directing marketing comm and executing a complete ad commercial production, l editing video, recording audio, and working with spe in producing audiovisual content, from initial clien

- 2007 | ~~2009~~ Semcon Human-Machine Interface Division
 Design Engineer & Project Co-coordinator
 Developed proof-of-concepts in Human-Machine Interaction as responsible for language technology area at Semcon Artificial Intelligence and Dialogue Systems. Program manager for Semcon AB. Co-coordinator (together with Patrik Car Corporation) for Pre-EFESOS, an 8 month research project in Human-Machine Interaction. The project resulted in a report from VINNOVA. Participated in the development of research work among participants from Chalmers, Volvo Car Corporation and Viktoria Institute.
- 1998 | ~~2004~~ Alvia Research & Technology AB and E3
 Web Developer and Graphic Designer
 Coordinator for a research project on next-generation automotive environment. The project resulted in a report from VINNOVA. Participated in the development of research work among participants from Chalmers, Volvo Car Corporation and the Viktoria Institute. Developed proofs-of-concept including Atlas Copco. Responsible for the technology of dialogue systems, and gave lectures in the fields of Human-Computer Interaction. Programmed multimedia marketing in Adobe Flash for Semcon.

Open Source Software Development and Portfolio

1. 100DaysOfVibe: a period of 100 days, I'm going to develop a web site 100-days-of-vibe.vercel.app/
2. VesselML: ML interface over shipping IoT-data [GitHub: https://github.com/cryptopatrick/vesselml](https://github.com/cryptopatrick/vesselml)
3. BallerMe: basketball 2D game characters [GitHub: https://github.com/cryptopatrick/ballerme](https://github.com/cryptopatrick/ballerme)
4. Rust crates: develop and maintain the following Rust packages: pgf2json, graph_mvcc, squadleader, Timed Release [Crates: https://crates.io/users/cryptopatrick](https://crates.io/users/cryptopatrick)
5. gf-core: Grammatical Framework runtime written in Rust [GitHub: https://github.com/cryptopatrick/gf-core](https://github.com/cryptopatrick/gf-core)
6. Trindite: state-based Dialogue Manager for flexible dialogues [GitHub: https://github.com/cryptopatrick/trindite](https://github.com/cryptopatrick/trindite)

Community and Communication

1. Co-organizer of the unofficial Libra Blockchain Hackathon around the world competed to develop applications for Libra. The prize was 1 Bitcoin (today worth over \$10000) [Link: https://medium.com/@hacklibra/hacklibra-winner](https://medium.com/@hacklibra/hacklibra-winner)
2. Keynote Speaker at EB:HQ (Stockholm) for the Capital Markets Foundation 2015. Gave a one-hour presentation on Bitcoin. Claimed that the price of a single bitcoin would reach \$100000 [Link: https://www.nea.nu/webinar-bitcoin-vad-ar-det](https://www.nea.nu/webinar-bitcoin-vad-ar-det)
3. Project Assistanted Charlie Lee, the creator of the Bitcoin trademark infringement case. The dispute was resolved [Link: https://x.com/LTCFoundation/status/710425904](https://x.com/LTCFoundation/status/710425904)

W r i t i n g s

- 1 .Agentic Micro (2025) Coordination of work between an Auction to bid on Requests-for-Work contracts from LLM MCP Server. Payment between User, Agent
